## Outplacement

### GROUP WORKSHOPS

## **Quick Start:**

### ***For Terminated Employees At Junior Levels***

#### ***Why This Workshop?***

Quick Start is a two day, cost effective workshop that serves the needs of hourly and lower level employees who might not otherwise receive outplacement counseling. It may be used alone or in conjunction with one-on-one consultation with a PeopleFind Career Coach, depending on your budget and objectives.

#### ***Who Will Benefit?***

The PeopleFind **Workshop for Terminated Employees** is an intensive program geared toward finding new work quickly. It covers the full spectrum of job hunting: from creating a powerful resume, to networking into the all-important hidden job market, all the way to negotiating an offer successfully.

Our trained facilitators work with each attendee to ensure that they understand what is needed to compete in today's economy. Interactive discussions, real-world examples, and role playing are used to convey and reinforce key components of a winning transition process.

#### ***What Are The Outcomes?***

Your former employees will learn how to:

- Manage their stress
- Take advantage of online job banks and internet recruiting
- Concentrate their efforts on activities that bring the best results quickly
- Tap into the hidden job market by networking via a wide range of contacts
- Interview with confidence and follow up professionally

***Getting People Back To Work...Affordably!***
